Part XV Line 2	Guidelines for Grant Seekers	

Lumina Foundation welcomes LOIs year-round from eligible organizations seeking funds for work that fits within Lumina’s mission and guidelines. Generally we review unsolicited inquiries through the end of September. Inquiries submitted after September may be held for consideration until the following year.

Organizations may submit more than one inquiry at any one time.

An LOI should describe the proposed work in three to five pages, using the questions below as guidance:

What are the intended outcomes, and how will the work achieve them? How does the work accelerate progress on Lumina’s overarching goal (by 2025, 60 percent of the population in the United States will hold a high-quality postsecondary degree or credential)?

Why is this work important to pursue at this time?

What special qualifications does the organization bring to this effort?

What other organizations are involved, if any? How will they contribute to the work?

How does the proposed work relate to the applicant organization’s mission?

What is the geographic scope of the proposed work?

What is the total cost of the effort? What amount do you seek from Lumina Foundation and for what period of time? What resources will other funders or organizations provide?

The Foundation considers only those inquiries that:

Include a completed cover sheet .DOC | 200k, not to exceed one page.

Are submitted on the letterhead of the sponsoring organization or institution.

Applicants are strongly encouraged to submit LOIs electronically. Please send the LOI (on letterhead) and completed cover sheet as attachment to newinquiry@luminafoundation.org. Please do not send any additional materials (binders, media, etc.) Applicants are welcome to submit inquiries by mail at the address below but are asked not to submit a letter both electronically and by mail.

If you cannot submit electronically, please send grant inquiries via mail to:

Program Office—“New Inquiry”
Lumina Foundation for Education
P.O. Box 1806
Indianapolis, IN 46206-1806

The review process

An internal review panel carefully reviews every LOI that meets foundation guidelines. Following the initial review, we will inform applicants within two months of receipt whether the inquiry fits our current priorities and resources. Due to limited resources, we cannot request proposals from all inquiries that meet our criteria. If we decide to request a full proposal, a Program Officer will contact the applicant to request additional information and to provide instructions on applying for a grant. An invitation to submit a proposal does not guarantee funding.

An internal review panel also carefully considers all solicited proposals; occasionally, we invite external experts to review proposals as well. We are diligent in our efforts to respond promptly to proposals. Assuming potential grantees’ timely responses to requests for information, the entire review and approval process typically takes approximately six months.

3) Total Paid Compensation

The Committee engages outside legal and compensation consultants to advise it.

4) Benefits and Deferred Compensation

5) Expense Account and Other Allowances

Directors and Officers do not have an expense account or allowance. They are reimbursed for actual business expenses. The amount reflected in column "e" includes parking and miscellaneous taxable and non-taxable work related expenses.

The Directors and Officers of the Foundation are responsible for managing assets of approximately \$1 billion to advance the Foundation's charitable mission of expanding access and success in postsecondary education. In 2012, the assets increased 5.1 percent (after payment of grant and operational expenses) from \$1.08 billion to \$1.14 billion. Investment earnings supported the grants payout of \$ 48 million.

In addition to managing the assets and the grant portfolio, the Foundation leaders exercised oversight of the ambitious agenda of activities to expand the impact of grants, including the dissemination of research through grants and publications, a robust web site, and strategic media and public outreach. The Foundation leaders hold the Foundation to high standards of transparency and accountability for the effectiveness of its work by supporting a series of external evaluations, publishing an annual report and posting evaluation information on its web site.

Direct Charitable Activities

The mission of Lumina Foundation is to expand access and success in education beyond high school, particularly among adults, first-generation college students, low-income students, and students of color. This mission is directed toward a single, overarching Goal – to increase the percentage of Americans with high-quality degrees, certificates and other credentials to 60% by the year 2025. This goal is a national priority for several reasons.

Higher education is a prerequisite to success in a knowledge-based society and economy.

The social and economic opportunities facing our country can best be addressed by educating many more people beyond high school. As we attain the goal, we improve the economy, strengthen civic engagement and reduce the costs of crime, poverty and health care and, in short, improve the human condition.

Higher education attainment rates among adults, first-generation college-going students, low-income students and students of color are significantly lower than those of other students. This gap has endured for decades and is now widening. This attainment gap is alarming given the country’s demographic trends and economic needs. It is an equity imperative.

The Foundation carries out several direct charitable programs in support of this mission. These include the following:

Description

Conferences and Convenings. The Foundation convenes groups of higher education leaders, policy makers, researchers, and others who are actively involved in the effort to expand access and success in higher education, particularly to hard-to-reach populations including adults who originally chose not to pursue higher education after high school, first generation students, low-income students, and students of color. These convenings are focused on bringing together key stakeholders on a specific topic with the objective being both to share information and to develop actionable, measurable next steps. The topics range from ways to overcome barriers to higher education to effective strategies to increase the rate of persistence and graduation among students who enroll in college. The Foundation disseminates the results of these convenings on its website to leverage the knowledge gained for the benefit of others. In 2012 the Foundation held 31 convenings; 18 at the Foundation’s offices, 4 off site, but in Indianapolis, and 9 out-of-state. The location of the convening is based on the topic and the participants. The total number of individuals participating in Foundation convenings was 1,313 with the average convening size being 42 participants. In addition to this convening strategy, the Foundation also actively seeks opportunities to share with external audiences the urgency of the need to increase degree attainment. For example, Foundation executives also participate actively in conferences on these subjects in the US and abroad. During 2012 the CEO made more than 50 keynote speeches and the Foundation executives and staff participated in more than 85 conferences to share Lumina’s knowledge with other attendees. \$ 3,504,156

Research and Publications. The Foundation conducts substantial research on issues affecting access and success in higher education and makes such research widely available at no charge. For example, in 2012, the Foundation released the second edition of its seminal report “A stronger nation through higher education: how and why Americans must achieve a “big goal” for college attainment.” This report offers a compelling case for the need to increase dramatically the higher education attainment rates, as a state-by-state analysis of the education level of residents, showing the work that must be done to accomplish the attainment goal of 60%. Based on the research and analysis of “A Stronger Nation”, Lumina released policy briefs for each state that addressed the issues and challenges of each state in reaching the 60% attainment goal. In addition to “A Stronger Nation”, during 2012, the Foundation released three issues of “Focus” - this is a publication that highlights a significant issue in higher education. The research and publication work is essential to the Foundation’s efforts to build public will around the issues of higher education access and attainment – to move key stakeholders, and the broader public, beyond mere awareness of these issues to action based on the urgency the issues. 2,190,098
