Notes:

1) Address for all Directors and Officers is 30 South Meridian Street, Suite 700, Indianapolis, IN 46204

2) Director compensation is based on the number of Board and committee meetings attended during the year. Actual amounts paid fluctuate among members based on their assignments.

3) Total Paid Compensation

Officers' compensation is set by a Committee of the Board composed entirely of independent directors who utilize compensation data of comparable private foundations and grant making institutions when establishing Executive compensation to ensure that it is appropriate and reasonable. The Board is responsible for making decisions regarding Director compensation. It uses market data of comparable private foundations to ensure that Board compensation is appropriate and reasonable and is similarly advised by outside legal counsel and compensation consultants.

4) Benefits and Deferred Compensation

Benefits and Deferred Compensation include Employer 401(k) matching funds (\$93,862), officer contributions for 401(k) and 457 plans (\$178,440), pension benefit accumulation (\$254,800), and health, life and disability compensation (\$132,321).

5) Expense Account and Other Allowances

Directors and Officers do not have an expense account or allowance. They are reimbursed for actual business expenses. The amount reflected in column "e" includes parking and miscellaneous taxable and non-taxable work related expenses.

The Directors and Officers of the Foundation are responsible for managing assets of approximately \$1 billion to advance the Foundation's charitable mission of expanding access and success in postsecondary education. In 2015, the assets decreased 5.7 percent (after payment of grant and operational expenses) from \$1.27 billion to \$1.19 billion. Investment earnings supported the grants payout and direct charitable activities totalling \$62.7 million.

In addition to managing the assets and the grant portfolio, the Foundation leaders exercised oversight of the ambitious agenda of activities to expand the impact of grants, including the dissemination of research through grants and publications, a robust web site, and strategic media and public outreach. The Foundation leaders hold the Foundation to high standards of transparency and accountability for the effectiveness of its work by supporting a series of external evaluations, publishing an annual report and posting evaluation information on its web site.

Description

Direct Charitable Activities

The mission of Lumina Foundation is to expand access and success in education beyond high school, particularly among adults, first-generation college students, low-income students, and students of color. This mission is directed toward a single, overarching goal – to increase the percentage of Americans with high-quality degrees, certificates and other credentials to 60% by the year 2025. This goal is a national priority for several reasons.

[Higher education is a prerequisite to success in a knowledge-based society and economy.](#)

The social and economic opportunities facing our country can best be addressed by educating many more people beyond high school. As we attain the goal, we improve the economy, strengthen civic engagement and reduce the costs of crime, poverty and health care and, in short, improve the human condition.

Higher education attainment rates among adults, first-generation college-going students, low-income students and students of color are significantly lower than those of other students. This gap has endured for decades and is now widening. This attainment gap is alarming given the country's demographic trends and economic needs. Closing this gap is an equity imperative.

The Foundation carries out a program of direct charitable activities in support of this mission. These include the following:

Description

Conferences and Convenings. The Foundation convenes higher education leaders, policy makers, researchers, and others who are actively involved in the effort to expand access and success in higher education, particularly to hard-to-reach populations including adults who originally chose not to pursue higher education after high school, first generation students, low-income students, and students of color. These convenings are focused on bringing together key stakeholders on a specific topic with the objective being both to share information and to develop actionable, measurable next steps. The topics range from ways to overcome barriers to higher education to effective strategies to increase the rate of persistence and graduation among students who enroll in college. The Foundation disseminates the results of these convenings on its website to leverage the knowledge gained for the benefit of others. In 2015 the Foundation held 53 convenings: 13 at the Foundation's offices, 7 off site, but in Indianapolis, 32 out-of-state and 1 out of the country. The location of each convening is based on the topic and the participants. In addition to this convening strategy, the Foundation also actively seeks opportunities to share with external audiences the urgency of the need to increase degree attainment. For example, Foundation executives also participate actively in conferences on these subjects in the US and abroad. During 2015 the CEO gave approximately 31 keynote and other speeches and the Foundation executives and staff participated in more than 37 conferences to share Lumina's knowledge with other attendees. \$ 3,875,588

Research and Publications. The Foundation conducts substantial nonpartisan research and analysis on issues affecting access and success in higher education and makes such research widely available at no charge. For example, in 2015, the Foundation released the sixth edition of its seminal report "A stronger nation through higher education: how and why Americans must achieve a "big goal" for college attainment." This report offers a compelling case for the need to increase dramatically the higher education attainment rates, as a state-by-state analysis of the education level of residents, showing the work that must be done to accomplish the attainment goal of 60%. Based on the research and analysis of "A Stronger Nation", Lumina released policy briefs for each state that addressed the issues and challenges of each state in reaching the 60% attainment goal. In addition to "A Stronger Nation," during 2015, the Foundation released two issues of "Focus" - this is a publication that highlights a significant issue in higher education. The research and publication work is essential to the Foundation's efforts to build public will around the issues of higher education access and attainment - to move key stakeholders, and the broader public, beyond mere awareness of these issues to action based on the urgency the issues. 10,449,504

Technical Assistance. The Foundation provides technical assistance to other stakeholders in the field of higher education, as well as to policy makers who are tasked with developing solutions to improve access and success in higher education. Foundation executives and staff regularly provide technical advice and assistance about critical issues such as the state of access to higher education, the range of programs that have been initiated to increase such access and to enhance the likelihood of success. This includes providing briefings and/or testimony at the request of policy makers on matters within its expertise. The Foundation uses nonpartisan research and analysis to provide background and educational information on the wide array of issues impacting higher education. In the case of legislative committee or subcommittee sessions, the Foundation provides testimony only upon written request of the chair of the applicable committee or subcommittee, and ensures that its testimony is available to all committee or subcommittee members. 5,527,261

Philanthropy. The Foundation is actively engaged in supporting the philanthropic sector in general, as well as higher education. Foundation executives are active with philanthropic organizations in the Indianapolis community, where the Foundation is headquartered, as well as with national and international philanthropic organizations that focus on the need to increase access to higher education, as well as retention and ultimately completion of degree programs. Foundation executives and staff members also serve on the boards of local and national charitable organizations. 451,511

Part XV Line 2	Guidelines for Grant Seekers	Statement Number	19

Lumina Foundation welcomes LOIs year-round from eligible organizations seeking funds for work that fits within Lumina’s mission and guidelines. Generally we review unsolicited inquiries through the end of September. Inquiries submitted after September may be held for consideration until the following year.

Organizations may submit more than one inquiry at any one time.

An LOI should describe the proposed work in three to five pages, using the questions below as guidance:

What are the intended outcomes, and how will the work achieve them? How does the work accelerate progress on Lumina’s overarching goal (by 2025, 60 percent of the population in the United States will hold a high-quality postsecondary degree or credential)?

Why is this work important to pursue at this time?

What special qualifications does the organization bring to this effort?

What other organizations are involved, if any? How will they contribute to the work?

How does the proposed work relate to the applicant organization’s mission?

What is the geographic scope of the proposed work?

What is the total cost of the effort? What amount do you seek from Lumina Foundation and for what period of time? What resources will other funders or organizations provide?

The Foundation considers only those inquiries that:

Include a completed cover sheet .DOC | 200k, not to exceed one page.

Are submitted on the letterhead of the sponsoring organization or institution.

Applicants are strongly encouraged to submit LOIs electronically. Please send the LOI (on letterhead) and completed cover sheet as attachment to newinquiry@luminafoundation.org. Please do not send any additional materials (binders, media, etc.) Applicants are welcome to submit inquiries by mail at the address below but are asked not to submit a letter both electronically and by mail.

If you cannot submit electronically, please send grant inquiries via mail to:

Program Office—“New Inquiry”
Lumina Foundation for Education
P.O. Box 1806
Indianapolis, IN 46206-1806

The review process

An internal review panel carefully reviews every LOI that meets foundation guidelines. Following the initial review, we will inform applicants within two months of receipt whether the inquiry fits our current priorities and resources. Due to limited resources, we cannot request proposals from all inquiries that meet our criteria. If we decide to request a full proposal, a Program Officer will contact the applicant to request additional information and to provide instructions on applying for a grant. An invitation to submit a proposal does not guarantee funding.

An internal review panel also carefully considers all solicited proposals; occasionally, we invite external experts to review proposals as well. We are diligent in our efforts to respond promptly to proposals. Assuming potential grantees’ timely responses to requests for information, the entire review and approval process typically takes approximately six months.
