Expanding the share of Americans with education and training after high school

A Stronger Nation

The nation needs at least 60 percent of adults to have a college degree, certificate, or other credential of value by 2025. To get there, we are working with business, community, education, and government leaders to restructure education and training systems that have granted exceptional opportunities to some while leaving many Black, Hispanic, and Native American adults behind. This is the story of our work.

Moving the nation toward a system for today's student

A Human Network

• More adults who are Black, Hispanic, and Native American are needed to pursue higher education and training so that the nation's share more than doubles to 60 percent by 2025.

The Next Five Years

The Change We Seek

• Support proven approaches to produce better results.

The Outcome We Need

• Greater economic opportunity and social mobility, regardless of race, ethnicity, income, or geographic location.

EVEN MORE INNOVATION

Rely on even more innovation as we move forward.

Path to 60%

The Five Next Years

Focus style and field policies on the need to prepare more individuals, especially people of color, for informed citizenship and successful careers in a global economy.

Increase access to well-designed programs and pathways that address social disparities in student outcomes.

Expand employer-aligned programs and partnerships.

Support institutions that serve today's student, including community and technical colleges, baccalaureate-granting colleges and universities, minority-serving institutions, and state higher education systems.

Support proven approaches to produce better results.

Increase access to well-designed programs and pathways that address social disparities in student outcomes.

Focus state and federal policymakers on the need to prepare more individuals, especially people of color, for informed citizenship and success in a global economy.

Develop new ways for people to learn and earn.

Increase use of proven student success practices.

Provide stronger student support, particularly in the transition from high school to postsecondary education.
